Item 41

-Skip channel when scanning(p. 46)
Item 47

-Display brightness(p. 19)
Item 16

-Auto power off(p. 63)
Item 1

-Stop scan beep
Item 5

Change transmit power(p. 16)
Press LOW(A/N) or C on microphone

Memory Bank Operation(p. 39)

Eight Memory Banks can be set up easily using software. I like RT Systems software and cables. Chirp is free software, but is more difficult to use and you will need to buy a separate cable. Once you have Banks set up and loaded in the radio use the following procedure to select a Bank.

M/W button switches between VFO (Variable Memory Operation) and Memory mode. Make sure you are in memory mode.

To select a Bank.

Press * on microphone to activate "Memory Bank" mode. Then press # to increment Banks.

PMS Band Limit Memory Scan-Resume(p. 47)

PMS 1 contains all 2 meter ham frequencies.
Press MHz(SET) look for "PMS" icon.

Toggle Alphanumeric/Frequency

Press and hold AN/LOW for 1 sec.

Home Button

Press D/MR(MW) to go to 146.520

Set Tone

Press MHz/SET for 1 second
Select # 49 SQLTYP
Press MHz/SET
Rotate dial to TONE
Press MHz momentarily
Rotate dial to #52 TN FRQ
Press MHz to select Tone Frequency
Press MHz for 1 second to save

Weather

P4 on microphone toggles weather
